

# Dog Nasal Mucosal Epithelial Cells

Cat. No. ARP0979,  $5 \times 10^5$  cells/vial

## Description

Research on the Dog Nasal Mucosal Epithelial Cells is essential to the study of allergic rhinitis, nasal polyposis, atrophic rhinitis, and olfactory dysfunction. The nasal mucosa is a type of moist tissue that consists of epithelial cells, a mucus layer, capillaries, and glands. It lines the inner walls of the nasal cavity and functions to warm and humidify the air, filter particles, provide immune defense, and support the sense of smell. The nasal mucosa is important as the first line of defense in the respiratory system to prevent pathogens and irritants. The health status of the nasal mucosa directly affects breathing comfort and the nasal cavity's ability to protect against harmful agents. The Dog Nasal Mucosal Epithelial Cells are to be used with Dog Nasal Mucosal Epithelial Cell Medium (Cat. No. ACM0979). This product is intended for laboratory in vitro use only. It is not intended for diagnostic, therapeutic, or clinical applications.

## Specification

Cell Type: Epithelial Cells

Tissue/Organ: Nose (mucosa)

Disease: Normal

Species: Canis lupus (Dog)

Genetic Background: N/A

Markers: Cytokeratin 19 (CK-19)

Symbols: DNMEC

## Shipping & Storage

Shipping condition: Frozen on dry ice.

Storage condition: Liquid nitrogen (LN<sub>2</sub>) cryopreservation.

## Intended Use

This product is intended for laboratory in vitro use only. It is not intended for diagnostic, therapeutic, or clinical applications.

## Culturing Guidance

Morphology: Cobblestone-like, Irregular

Growth Mode: Adherent

Temperature: 37°C

Atmosphere: 5% CO<sub>2</sub>

## Unpacking and Storage Instructions

1. Visually inspect all packaging components for integrity and verify adequate dry ice.  
If any damage is observed, notify Ascent Technical Support immediately.
2. Prioritize transfer to liquid nitrogen vapor phase storage system (-130°C or below).  
Secondary option: -80°C mechanical freezer (short-term storage only).  
Always maintain temperature strictly below -65°C.

## Disclaimer

Ascent Research endeavors to provide accurate and up-to-date product information. However, no warranties or representations are made regarding its completeness or reliability. References to scientific literature and patents are for informational purposes only, and the customer assumes sole responsibility for verifying their accuracy.

By accepting this product, the customer acknowledges and agrees to assume all risks associated with its receipt, handling, storage, disposal, and use, including compliance with all applicable safety and environmental regulations and precautions. Relevant laws, regulations, and ethical guidelines must be followed in conducting any research, modifications, or derivatives derived from this product.

This product is provided "AS IS", and except as expressly stated herein, Ascent Research disclaims all other warranties, express or implied.
